Shop Highlights

- 72,000 sq/ft facility
- (25) Machining Centers (3,4, and 5 Axis)
- (5) Turning Centers
- Swiss Turning
- (4) Wire EDM's
- (10) Surface Grinders
- Dynamic Waterjet
- Zeiss CMM AKTIV Scanning
- Class 10,000 Cleanroom
- Ultrasonic Washing
- Cleanroom Packaging/ Assembly
- Laser Welding
- Laser Marking
- Tooling Department
- Reverse Engineering
- 3D Printing
- Powder Coating

Past Projects

- Propulsion Systems
- Rocket Components
- WiFi Integration
- Actuators
- Space Suit Components
- ISS Structural Components
- Fuel System Components

Reich Tool & Design's strict climate-controlled aerospace machine shop is equipped with numerous machines specifically designed to produce quality and precise components. Our superior aerospace machining capabilities set us apart from other shops and have rendered us a leading service provider in one of the world's most innovative industries. With an established list of outside partnerships for special materials and secondary work, we're able to complete your project from start to finish.
